AMBULATORY THERAPY PROGRAM**

Brooklyn-Queens Nursing Home, a 140-bed SNF, located at 2749 Linden Blvd, Brooklyn, New York, opened an Ambulatory Therapy Program. The program will provide treatment for work related injuries, neuromuscular and orthopedic disorders as well as soft tissue injuries.

Brooklyn-Queens NH Ambulatory Therapy program strives to restore the patient to his/her maximum level of performance through the development of personal Physical Therapy rehabilitation programs mindful of the patient's specific needs and special problems.

The Occupational Therapy program is designed to assist patients in achieving independence in the activities of daily living through restorative exercises, specially designed adaptive devices and counseling.

The Speech Therapy program will establish communication skills for our patients that can place them back in the workforce and the mainstream of life, opening the doors of opportunity that were previously closed to them.
