HIGHLAND CARE CENTER, INC.

REHABILITATION SERVICES

The rehab gym is an island of hope in a rehabilitation and skilled nursing facility. It is the center of positive change at **Highland Care Center**. When posed with the question, "What makes the **Highland Care Center's** Rehab Department different than other rehab departments in other centers"; the answer that came to mind was two-fold.

One is the total amount of time that the rehab staff has worked at **Highland Care Center**, specifically in the rehab department. There are eleven full-time rehab staff who have a total of 100 years experience combined and the part time staff of two have 14 years experience. The reasons for this longevity are many, but essentially it boils down to job satisfaction of both the work demanded and the job done. This longevity is exceptional in the rehab world which is traditionally a field of high staff turnover.

The second unique aspect of **Highland Care Center's** Rehab Department is that this consistency of personnel has facilitated an environment that is geared to treat a very broad range of conditions.

In fact, **Highland Care Center's** Rehab Department has a reputation of success with residents who might not obviously be the best rehab candidates or who were not successful in other rehab centers.

Highland's staff feels very blessed to be able to serve their clients for so many years in so many ways.

ST. JOHNLAND NURSING CENTER

Kings Park High School's National Art Honor Society volunteers paint a restful mural at **St. Johnland Nursing Center's** Adult Day Health Services program. The quiet room will take on a new look thanks to students Dana Biviano, Keara DeMaio and teacher Mrs. Blaurock.
